

# Łukasz Paprot

Junior Java Developer

# CV

## Profile

## Education

### Polish-Japanese Academy of Information Technology

Master Degree in Computer Science | 2023 - 2025

- Specialization: Engineering of software, business processes and databases.
- Master of Engineering's degree thesis: "Automate code creation in IntelliJ environments: Plugin that generates controller structures based on the data model"

### Warsaw University of Technology

Bachelor of engineering in Automation and Robotization of Production Processes | 2016 - 2022

- Faculty of Mechanical and Industrial Engineering
- Mid-Bachelor of Engineering's degree thesis: „Automation of the extrusion process"
- Bachelor of Engineering's degree thesis: "Identification of industrial product markings using vision technology"

### CodeCool Polska

Weekend Full-Stack Developer CodeCool | 2020 - 2021

- Programming learning in four quarterly stages:
  - ProgBasics - Python
  - Web - Python, Flask, HTML, CSS, Javascript
  - OOP - Java
  - Advanced - Java, Spring, React.js
- Nearly 416h of workshop work and 528h of work on 13 projects

## About me

As a second-year Master's student at PJATK, majoring in Computer Science, I bring a strong academic foundation and a passion for innovation. I hold an Engineering degree in Automation and Robotization of Production Processes. To further enhance my skills, I participated in the "Weekend Full-Stack Developer" course at CodeCool, where I built my programming expertise and developed valuable soft skills.

Driven by my ambition and curiosity, I independently learned Swift and successfully created my own iOS application, AlkoSearch. This project allowed me to adapt quickly to new technologies and deliver a functional product from scratch. My journey in programming reflects my dedication to creating solutions that make a impact.

Beyond technical expertise, I am a supportive and collaborative team player. I believe that success comes from a willingness to share insights, seek advice, and contribute to collective goals. My enthusiasm for growth and learning drives me to embrace challenges fully, and I look forward to continuing my professional and personal development through meaningful projects and teamwork.

## Experience

### Consultant

#### Netcompany

03.2025 – currently

#### Responsibilities:

- Developed and delivered bugfixes based on task specifications and Jira tickets.
- Investigated and analyzed application logs using Splunk and Kibana to identify and resolve issues.
- Maintained the stability of data flow across distributed systems in a production environment.
- Collaborated with the client to diagnose and resolve system behavior anomalies and application errors.
- Supported system maintenance and ensured availability of backend services by monitoring integrations.
- Participated in daily stand-ups and contributed to ongoing improvement of application reliability.

### Junior System Administrator

#### T-Mobile

05.2024 – currently

#### Responsibilities:

- Creating application for finance sector in Access using VBA
- Creating technical documentation for created applications
- Creating a macro in excel using VBA
- Creating queries to retrieve data from databases using PostgreSQL, Microsoft SQL Server and SQL Developer from Oracle
- Validation of data from various databases
- Writing procedures in the database to retrieve data for Access applications

### Junior Java Developer

Bytamic Solutions Sp. z o.o.  
09.2023 – 03.2024

#### Responsibilities:

- Improving tests by using Mockito framework
- Update classes using Spring framework
- Using Jenkins to monitor project builds
- Using GCP (Google Cloud Platform) to build and test new solutions
- Working on the basis of DevOps methodologies
- Taking part in daily gatherings and technical conversations related to the project in English.

### Junior Java Developer

Primaris Services Sp. z o.o.  
01.2022 – 03.2023

#### Responsibilities:

- Creating queries and querying data in MySQL Server database
- Programming data mapping in DataWeave (Java Framework)
- Consulting integration results with the project team
- Creating alerts and ensuring proper monitoring of systems
- Working on the basis of DevOps methodologies
- Participating in daily meetings and discussions in English on the technical side of the project

### IT Intern

Domański Zakrzewski Palinka sp. k.  
01.2020 – 12.2021

#### Responsibilities:

- Troubleshooting IT systems issues
- Creating small python scripts to fetch data from a page and send it to a database
- Creating small macro in Excel by using Visual Basic
- Collaborate with staff performing tasks in the area of IT infrastructure and systems
- Assist users in the use of Excel along with the use of macros at an advanced level
- Creating macros for company employees in Office programs
- Installing software on workstations
- Supporting optimization processes and activities
- Assisting in the implementation of Intune, a cloud-based service for managing mobile devices
- Managing resources and user accounts from Active Directory and Azure AD in a hybrid structure
- Practical application of MDM Intune in the organization

### Constructor

Planet of Robots  
01.2019 – 01.2020

#### Responsibilities:

- LEGO MindStorms robot builder
- Robot programming
- Conducting classes for children on the subject of programming (C++ and Python)
- Camp educator

---

## Technologies

Java

Java

Spring Boot

PostgreSQL

HTML5

Python

Swift

Git

# Additional skills

<b>Languages</b>	English level C1
<b>Knowledge of programs:</b>	Very good knowledge of IntelliJ, Visual Studio Code, PyCharm Professional, MS Office Package
<b>Soft skills:</b>	Ability to work in a team, reliability, responsibility, punctuality, willingness to learn and gain experience, high motivation

---

# Hobby

- astronomy
- mathematics and physics
- travels
- Gym
- Computer games

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
