

Łukasz Paprot

Java Developer

CV

Profile

Education

Polish-Japanese Academy of Information Technology

Master's degree in computer science | 2023 - 2025

- Specialization: Engineering of software, business processes and databases.
- Master of Engineering's degree thesis: "Automate code creation in IntelliJ environments: Plugin that generates controller structures based on the data model"

Warsaw University of Technology

Bachelor of engineering in Automation and Robotization of Production Processes | 2016 - 2022

- Faculty of Mechanical and Industrial Engineering
- Mid-Bachelor of Engineering's degree thesis: „Automation of the extrusion process"
- Bachelor of Engineering's degree thesis: "Identification of industrial product markings using vision technology"

CodeCool Polska

Weekend Full-Stack Developer CodeCool | 2020 - 2021

- Programming learning in four quarterly stages:
 - ProgBasics - Python
 - Web - Python, Flask, HTML, CSS, Javascript
 - OOP - Java
 - Advanced - Java, Spring, React.js
- Nearly 416h of workshop work and 528h of work on 13 projects

About me

Java Developer with nearly four years of commercial experience in software development, specializing in backend applications built with Java and Spring technologies. Throughout my career, I have worked on enterprise systems, distributed architectures, and data integrations, collaborating with international teams in Agile environments.

My professional experience includes developing and maintaining applications, investigating production issues using tools such as Splunk and Kibana, working with relational databases, and supporting cloud-based solutions. I have also gained hands-on experience with technologies including PostgreSQL, Oracle, GCP, Jenkins, Mockito, and Git.

In addition to my professional work, I hold a Master's degree in Computer Science and an Engineering degree in Automation and Robotics. I am passionate about software engineering and continuously expand my knowledge by exploring new technologies and building personal projects, such as my iOS application, AlkoSearch.

I enjoy solving complex problems, learning new concepts, and working collaboratively to deliver reliable and high-quality solutions.

Experience

Consultant

Netcompany

03.2025 – currently

Responsibilities:

- Developing and maintaining backend applications using **Java 17** and **Spring Boot**.
- Delivering bug fixes and implementing changes based on business requirements and **Jira** tasks.
- Investigating and troubleshooting production issues using **Splunk** and **Kibana**.
- Monitoring and maintaining the stability of data flow across distributed systems.
- Collaborating with clients and development teams to analyze and resolve application issues.
- Supporting system maintenance and ensuring the availability of backend services and integrations.
- Participating in daily stand-ups and contributing to the continuous improvement of application reliability and performance

Junior System Administrator

T-Mobile

05.2024 – currently

Responsibilities:

- Developing internal tools and applications to automate business processes in the financial sector.
- Working with relational databases, including **PostgreSQL**, **Microsoft SQL Server**, and **Oracle Database**.
- Designing **SQL** queries and database procedures to support internal applications.
- Automating reporting and data-processing tasks using **VBA** and **Microsoft Access**.
- Preparing technical documentation and validating data consistency across multiple systems.
- Collaborating with business stakeholders to deliver reliable and efficient solutions.

Junior Java Developer

Bytamic Solutions Sp. z o.o.
09.2023 – 03.2024

Responsibilities:

- Developing and maintaining backend components using **Java 11** and **Spring Boot**.
- Improving and extending automated tests using **Mockito**.
- Implementing changes and updates based on project requirements.
- Using Jenkins to monitor and maintain project builds.
- Working with **Google Cloud Platform (GCP)** to build, test, and deploy solutions.
- Collaborating with the development team in an **Agile** environment and participating in daily stand-ups and technical discussions.
- Contributing to code quality and application reliability.

Junior Java Developer

Primaris Services Sp. z o.o.
01.2022 – 03.2023

Responsibilities:

- Developing data integration solutions using **DataWeave** and **Java-based technologies**.
- Writing **SQL** queries and working with **MySQL databases**.
- Designing and implementing data mappings between different systems.
- Monitoring applications and configuring alerts to ensure system reliability.
- Collaborating with developers and business teams to validate integration results.
- Working according to **DevOps** and **Agile** methodologies.

IT Intern

Domański Zakrzewski Palinka sp. k.
01.2020 – 12.2021

Responsibilities:

- Providing technical support and troubleshooting IT infrastructure and system-related issues.
- Developing automation scripts in **Python** to retrieve and process data.
- Creating macros and automation tools in **Microsoft Excel** using **VBA**.
- Supporting employees in the use of advanced **Excel** functionalities and **Office applications**.
- Collaborating with IT teams to optimize internal processes and improve operational efficiency.
- Managing user accounts and organizational resources in **Active Directory** and **Azure Active Directory**.
- Installing and configuring software on employee workstations.
- Supporting mobile device management (**MDM**) solutions within the organization

Technologies

Java • Spring Boot • SQL • PostgreSQL • Git • Mockito • Gradle • Splunk • Docker

Additional technologies

- Hibernate/JPA
- Python
- Junit
- Linux
- Scrum/Agile
- Jenkins
- Swift
- Oracle SQL
- Microsoft SQL Server
- VBA
- HTML, CSS, JavaScript
- IntelliJ IDEA
- Jira

Additional skills

Languages	English level B2
Soft skills:	Ability to work in a team, reliability, responsibility, punctuality, willingness to learn and gain experience, high motivation

Hobby

- Astronomy
- Mathematics and physics
- Travelling
- Gym

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
